## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 18 recites the limitation "the upper" and "the middle" in the claim. There is insufficient antecedent basis for this limitation in the claim. In addition to the antecedent problem, the claim is unclear since no reference point exists to identify the limitations claimed.

Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 18 recites the limitation "the lower" and "the middle" in the claim. There is insufficient antecedent basis for this limitation in the claim. In addition to the antecedent problem, the claim is unclear since no reference point exists to identify the limitations claimed.

Claims 18-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Although each of the claims include terms such as upper, lower, middle, and/or distance, there is no structural language to clarify what is

claimed. One of ordinary skill in the art would not be able to determine the metes and bounds of the invention.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Morrow et al (6561932). Morrow et al discloses a throat, scoop and pair of sidewalls said sidewalls having portion having an inner edge that is convex inwardly (fig 3).

As to claim 16 : Morrow discloses curved sidewalls (fig 3).

As to claim 17 : Morrow discloses varying curvature along the length of the sidewalls (fig 3).

As to claim 18 : Morrow discloses an upper portion larger than a middle portion (fig 3).

As to claim 19 : Morrow discloses an lower portion larger than a middle portion (fig 3).

As to claim 20 : Morrow discloses a distance greater at the upper portion than the middle portion (fig 3).

As to claim 21 : Morrow discloses a distance greater at the lower portion than the middle portion (fig 3).

As to claim 22 : See claim 15 rejection.

As to claim 23 : See claim 15 rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
